Subject: draft procedures re: ESA

John – As a follow-up to our conversation on ESA issues in the context of 404 assumption, attached is draft language regarding potential coordination procedures that could be added to draft EPA-FDEP MOA. This draft language hasn't been fully vetted within the EPA, but we thought it would be helpful for you to see the concept and let us know of any thoughts or comments. If you have any questions or wish to discuss please let us know. Thanks. Tom
